MAYOR LELAND GREEN IS ASKING RE-ELECTION

PLEDGES PROGRESS FOR CITY IN POST WAR DAYS

Mayor Leland Green is a candidate for re-election to a second term in the office, subject to the City Democratic Primary election to be held on Tuesday, February 1, 1944.

In making his formal bid for re-election to the city's most important official post, Mayor Green issued a frank challenge for progress, admited restrictions of war had curtailed the program on which he pledged action when elected in 1942 but pointed out that conditions were such that no one, no matter how experienced, could have done better.

The chalienge for the future of Cameron is contained in his exhibit of Post War planning. Mr. Green points out that in the days to come the opportunity is certain to be presented and he wants an opportunity to do the things he knows he can do for Cameron. Under the Democratic precedent of two terms in office he feels that the people have already manifested sufficient interest in his campaign to assure his re-election and was most happy to acknowledge the support of many. Friends were pointing out with appreciation to his ability which they say has inspired confidence. They point with pride to the financial condition of the city which in the brief time Mayor Green has served, has been greatly strengthened.

Long experience in business has equipped Mr Green for a signal service to the people. He believes that the principles of economy that make business succeed can and should be applied to the municipal government. This he has tried at all times to do and believes he has succeeded well, as the record will show.

Mr. Green's first term as Mayor has been unique in many ways. He has spent more time, he declared, in devotion to duty than any Mayor within recent history of Cameron. While constructive improvements which he hoped would materialize under his first term, may not be evidenced, though they are projected already for the immediate future, he points out that the war has brought a multiplicity of obligations, a wealth of administrative details that have been both time consuming and of necessary import to the city.

Mayor Green hopes to see some restrictions made in administrative expenditures, turning back savings to the treasury that may be applied in the funds that must be provided for the big things just around the corner.

Substantially Mayor Green believes he has redeemed all his pledges to the people and counts the public improvement program on the way to fulfillment because of the work he has done to shape it for the Post War Days.

The contribution of Cameron to the aggregate of the nation in providing employment may be small, but as it applies to the local community will be considerable. Primarily the advantage should accrue as it marks progress, for Cameron is at the cross roads Mayor Green was very definite in his pledge to improve sanitary conditions and to bring quick relief to all sections of the city in the equal and uniform distribution of tax money. He pledges quick and effective measures to these and other problems that in a measure have not been solved due to shortage of time and war conditions.

Mayor Green and friends point out that a second term in the office would bring opportunity for accomplishments. The confidence of the people will make possible many worthwhile things.

Mayor Green has been able to obtain co-operation with harmony prevailing in all departments. The people have been helpful and he appreciates their aid. His many friends are recalling his service to the community both as a business man and as President of the Chamber of Commerce. They appreciate his rating in the business world here and fully realize his record merits continued confidence and re-election.

In the few days remaining Mayor Green hopes to see each voter personally but this may not be possible. He wants the people, through the Herald to know hom much he values their good will and in this way asks for your vote and support.

JAMES D. LEATH
Technician U. S. Marines

* * * *

SGT. JAMES D. LEATH CITED FOR HEROISM

Sgt. James D. Leath, Technician, United States Marines, has just been cited for heroism for outstanding and especially meritorious service in the combat zone.

A certificte of commendation for his service, performed under hazardous conditions, has just reached his parents, Mr. and Mrs. George Leath in Cameron

Sgt. Leath volunteered for service in December 1941, shortly after the Jap attack on Pearl Harbor. He was soon assigned to duty in the South Pacific.

The certificate of commendation reads as follows:

"For outstanding and especially meritorious service this Certificate is awarded to Technician, James D. Leath, Service Company 126th Infantry, for volunteering to man weapons on the small ships constantly plying in hostile waters in the supply of our forces in their advance on Buna. At this time this duty was exceptionally hazardous, nine of ten ships of the early supply fleet having been sunk by enemy action. Technician James D. Leath's tenacity of purpose, disregard for his own personal safety, and devotion to duty materially assisted in the supply of our forces at a critical time when, if the supply had been bogged down would have jeopardized the success of the Papaun campaign."

The citation which was sent home by Sgt. Leath to his parents was signed by Col. J. S. Bradley, commanding the Regiment of Marines to which the hero is attached.

ROY BASKIN CANDIDATE FOR CITY ATTORNEY

Roy Baskin, City Attorney, is a candidate to succeed himself in the office and running without opposition, subject to the City Democratic Primary Election to be held on Tuesday, February 1, 1944

Mr. Baskin prominent bar member and former Criminal District Attorney, has served as city attorney with characteristic honesty and efficiency and the fact that he is to succeed himslf in the office will be received with approval by the people of Cameron.

The citizens here feel that the legal department of the City government is not only in capable hands but will be safeguarded with the same official integrity that has marked the distinguished record of Mr. Baskin since he first attracted wide attention as County and District Attorney.

Mr. Baskin as the legal representative of the people of Cameron has served with distinction, not only in the preparation of legal documents for the city but in the corporation court as well. His legal ability, plus years of experience as a lawyer of note, gives the city an advantage few municipalities may claim in their office of attorney.

Mr. Baskin was born and reared in Cameron and comes from one of the prominent, pioneer families. A graduate of the University law school, he came back to his home community and since has played a worthy role as a citizen and professional man. Power Company Crew Keeps Current Flow Despite Ice Storm

Keeping up the high lines and maintaining power and light service during an ice storm is about the toughest job that can come to a line crew.

Local employes of the Texas Power & Light Company under the supervision of J. Albert Young, Manager, plus the service of a line crew which the local district office was able to command, maintained light and power service during the recent ice and snow storm at great personal sacrifice to say nothing of the hazards which such an ordeal entails. Those who are fortunate enough to be able to sit at home within easy reach of a never failing switch and whose view of the storm is through the pane where beautiful snow flakes fly by, little know the hardships a lineman endures.

Back in 1937 power and light service was maintained in the teeth of a blizzard that swept most cities into darkness. Again in January 1944 the power company had the same experience.

Mr. Young said light and power were maintained with a trivial exception though power was lost to some of the rural areas and smaller towns. Seventeen sections of the high line between Cameron and Buckholts collapsed. Live wires with 12,500 volts lay on the wet and frozen ground and became entangled with fences along the highway.

At one farm house the current set fire to a post in the yard fence. The house wife came out with a bucket of water. Crewmen calling loudly through the gale to warn her of the danger were unable to make their voices heard. She was knocked down in the snow but not injured.

A short line from Minerva to Milano was open. Mr. Young and all his men with scarcely 4 hours of sleep out of 36 kept up the fight. When the storm finally cleared Sunday they had won but all were exhausted. So trying was the ordeal Mr. Young could not sleep for hours after he reached his home, so went to the theatre where he relaxed from the strain and then got about 16 hours of sleep.

Among the local men were W. L. Kilgore, lineman; Earl Moseley, former lineman for the company; R. Hairston and Fred Norwood, helpers.

The members of the regular line crew shooting trouble in the ice zone could not be obtained.

Fumigation Smoke is Mistaken for Fire; Chief Bumps Truck

Gene Muse at the Muse Market & Grocery Thursday was somewhat like Mark Twain who said his death had been greatly exaggerated.

Last night Mr. Muse was summoned from his home. Smoke from fumigation lamps in his store and market were mistaken for a real fire. The alarm was sounded. The Firemen, prompt as usual responded.

Chief Henderson in his haste to get to the fire bumped into the fire truck. Given a razz by the fire boys Chief Henderson was reminded that he had left the motor of his car running.

Mr. Muse said some of the boys threatened to give the Chief opposition at the next election. Seriously Mr Muse was mighty thankful to know the Firemen were on the job even though he did not have a fire in his store.

BERLIN IS BLASTED IN NEW RAF PLANE ATTACK

The whole story of the progress of the war was neatly wrapped up last night in the story of two of the world's greatest cities—Berlin and Leningrad.

For the first time in 29 months, the citizens of Leningrad could walk its damaged streets without listening for the sudden whistle of a shell from batteries of Nazi cannon that had raked the former Russian capital day and night since the first swift German lunge was stopped at its outskirts.

Red army liberators of the long-besieged city hacked mercilessly at beaten and seemingly bewildered Nazi troops over a vast territory south of Leningrad, with two converging Soviet forces racing to trap and wipe out possibly 250,000 German soldiers. The sound of guns was receding rapidly from Leningrad. Yesterday a Russian column pushed through the railroad junction of Gga, 30 miles southeast of the old Czarist capital.

By contrast, Berlin, the nerve center of Nazidom and city that Hermann Goering said never would be bombed, blazed from the most terrible battering yet given it by the RAF's big night bombers—over 2,576 American tons of explosive and fire bombs strewn over its houses and stores and factories in just over 30 minutes.

Eight hundred British and Canadion planes went in over a cloud layer early Thursday night and, almost without fighter interference, methodically added to the destruction of the German capital.

Hard ground fighting raged for the fourth straight day on the Fifth army front in Italy, with Lt. General Mark W. Clark's British forces beating off repeated German counter attacks and steadily expanding their bridge heads on the north bank of the Garigliano river. Allied capture of the communications center of Minturno, two miles from the river, was confirmed.

French troops crossed the Rapido river four miles above Cassino and threatened to flank that German bastion, 20 miles inland from the Tyrrhenian sea.

Pvt. and Mrs. Oakley Cramblit left Wednesday for Ohio where they will visit his parents. Mrs. Cramblit is the former Miss Mary Sue Price and Pvt. Cramblit is stationed at Camp Hood.

Pvt. Delbert Hess of Camp Hood is in Cameron visiting his parents and other relatives and friends.

$23,456 BOND TOTAL REPORTED FRIDAY

Bond sales reported Friday on the fourth day of the 4th War Loan total only $23,456.

The tabulation came from the office of Chas. M. Hicks, 4th War Loan Director for the county. Committees were said to be working and the next few days may bring hopeful results.

The total thus far is very disappointing. Only $18,956 of the amount reported is for E bonds. Commerical investments totaled only $4,500.

The quota for Cameron is $75,000 and the quota for the county is $300,000. Of the total communcated today credits will go to other communities and actually the city has sold very few bonds.

W. C. Wiese of Calvert was in Cameron Friday on business. He was former principal of the high school here.

CHAS. C. SMITH WILL ASK PLANNING BOARD

Chas. C. Smith, candidate for Mayor of the City of Cameron, if elected, will ask for a Planning Board, to assure the utmost in co-operation and progress for Cameron during the Fost War Days, he declared early Monday.

Mr. Smith said such a Board would be of great help to the Council in planning public improvements and in addition would call into active participation in the city's affairs, leading business men and citizens who will have been chosen because of their interest and ability.

Cities throughout America are creating Planning Boards to facilitate public work. The Federal Government looks upon such a plan as most desirable, said Mr. Smith.

Mr. Smith requested publication of the following statement to the People of Cameron:

"A city is like any other business. It cannot become static and remain that way. It must go forward in step with the times or it will fall into decay and go backward.

"The leaders in Washington have never laid down war restrictions that justified city heads to sit back and twiddle their thumbs and do nothing.

"I have definite plans for much needed city improvements, with local labor and materials, that should have been carried out the past two years, and which war restrictions do not touch. If I can place the city in good financial condition and give you a half million dollars worth of modern improvements in depression times I believe you have every confidence I can carry on a program now to which the city is entitled.

"After all my best efforts, and the efforts of the leading brains of our local civic organizations, could not get you an air port, I would not pose as a superman and unreservedly promise the air port. The ill respect to your intelligence is in thinking you would forget it in so short a time.

"I have already been meeting with some of our most public spirited citizens planning constructive programs so that your boys and mine who are across the broad Atlantic and the vast Pacific, in cold, muddy fox holes fighting your battles and mine, will come home and find we did not let them down.

"I make no false promises. I raise no smoke screen of excuses for failure. My deep, sincere interest is for the progress of Cameron and the common welfare of every citizen."

The Law Review is a digest of decisions and of law and keeps the members of the profession informed on all decisions and laws. Mr. Cox has been very active in the Association and recently the Review published a resolution written by him and adopted by the Texas Bar Association convention in which he discussed the break away from constitutional government.

Mileage Rationing Director Meets Gas Station Operators

J. D. Seymour, District Mileage Rationing Representative, held a meeting of licensed gasoline distributors, intermediate gasolie distributors and gasoline dealers in Cameron, January 18.

Meetings of these groups are being held in every county in the district. The meeting covered the necessity for rationing; the requirements which are placed on the gasoline dealer; the reason for these requirements; and touched upon the enforcement angle. Mr. Seymour stressed the importance of the endorsement of gasoline ration coupons.

In order to combat the Black Market in gasoline ration coupons, it is imperative that the Office of Price Administration gets the co-operation of the handlers of gasoline from the licensed distributors, the intermediate distributors and the gasoline dealers.

Mr. Seymour praised the local Board for their work in connection with the Mileage Rationing Program.

"Constant Nymph" A Love Story. Due at Cameron

Some years ago Margaret Kennedy wrote a book that instantly became a sensational best-seller. The book, entitled "The Constant Nymph," became a hit play on Broadway and now has been made into a picture by Warner Bros. "The Contstant Nymph,' based upon the novel and the play, will have its initial opening at the Cameron Theatre on Thursday.

Starred in the film are Charles Boyer and Joan Fontaine, who won the Academy Award for her fine performance in "Suspicion." An outstanding supporting cast is headed by Alexis Smith, glamorous young star of "Gentleman Jim," Brenda Marshall, Charles Coburn, Peter Lorre, this time in a sympathetic role, Mame May Whitty, Jean Muir, who returns to the screen after a long absence, Montague Love, Joyce Reynolds and Edward Ciannelli.

CHRISTIAN SCIENCE SERVICES

"Love" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, January 30.

The Golden Text is: "Beloved, let us love one another: for love is of God; and every one that loveth is born of God, and knoweth God." (I John 4:7.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Be not overcome of evil, but overcome evil with good" (Romans 12:21.)

The Lesson- Sermon also includes the following passage from the Christian Science textbook. "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Human hate has no legitimate mandate and no kingdom. Love is enthroned." (Page 454.)

Mildred Brecka of Yarrellton was a Cameron visitor Friday.

SLOW PROGRESS NOTED IN WAR THEATRES

There was considerable fake enthusiasm over the war trend Friday.

The fall of Novgorod which in effect had lifted the seige of Leningrad was a development of moment. The vast expanses involved in the Eastern Front war makes advances seem insignificant.

On the whole the pattern was not unlike that of 25 years ago. In the trenches in Italy soldiers were slugging it out at a snail's pace.

Novgorod had been a Nazi stronghold for 29 months The Germans seem to have lost their offensive power and the waning spirit was responsible for rapid Russian advances.

The so called coming invasion of Europe from the west was still as much a mystery as 6 months ago.

Berlin was bombed again Thursday night.

Allied airmen in the Pacific shot down 33 Jap planes and sunk two ships, one a cruiser. Enemy cargo ships totaling 10 thousand tons were sunk.

Mrs. Fay Lekutis, the former Miss Fay Kirk is doing nicely following an operation in the Newton Memorial Hospital. S|Sgt. Joe Lekutis of New York is on a 15 day furlough from Camp Hood, and has been by his wife's bed side day and night since his wife has been so seriously ill.

Starred in the film are Charles Boyer and Joan Fontaine, who won the Academy Award for her fine performance in "Suspicion." An outstanding supporting cast is headed by Alexis Smith, glamorous young star of "Gentleman Jim," Brenda Marshall, Charles Coburn, Peter Lorre, this time in a sympathetic role, Mame May Whitty, Jean Muir, who returns to the screen after a long absence, Montague Love, Joyce Reynolds and Edward Ciannelli.

Milano Basketball Team Making Good Record This Year

Milano High School boys basketball team is having an unusually good year. So far this year they have played 10 games winning all but one. Milano dropped a close decision 22-24 to Cameron a Class A team. This game was played in Cameron. Later Milano beat Cameron 21-31. Milano has defeated the following class A schools: Franklin 26-35, Rockdale twice by 17-26 and 21-49, Caldwell twice 21-27 and 21-36, Rogers 17-36.

In the only Class B conference played so far Milano defeated Sharp by the lop-sided score of 14-47.

The team is coached by Supt. Hinton Pruett and the outstanding thing about the team is that there are only five boys to make up the regular team. The boys are Harold Lankford, senior; Lamar Shafer, senior; Garland Westbrook, jurnior; Chas. Martin, junior and Jack McCallum, sophomore. The team depends on speed in floor work and accuracy in basket shooting. They are small boys and have to depend upon speed and deception to make up for size.

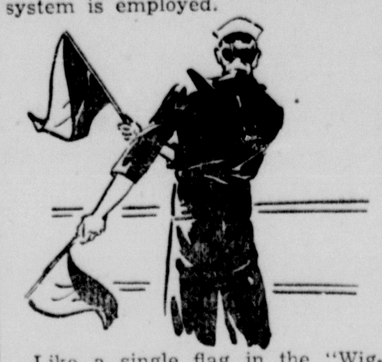
The Calss B conference in Milam county is composed of Sharp, Thorndale, Buckholts and Milano. At the present time Milano and Thorndale each have perfect records with one victory and no defeats. Buckholts is at 500 per cent with one loss and one victory. Sharp has lost two, one each to Thorndale and Milano.

Mr. and Mrs. John Matyastik and family of Clarkson were Cameron visitors Saturday.

What You Buy With WAR BONDS

Wigwag

Frequently the Navy, the Coast Guard and the Signal Corps finds it expedient to relay messages without benefit of telephone, telegraph or radio. That is when the semaphore system is employed.



Like a single flag in the "Wigwag" system, the purchase of a War Savings Stamp or Bond, in itself has an infinitesimal effect upon the entire war effort, but when 130 million determined people set their minds to make our War Bond drives successful, the result is anything but infinitesimal. *U. S. Treasury Department*

This farm boy stopped bullets intended for you . . .

Joe Martinez, Colorado farm boy, his battalion bogged down under withering fire from Jap positions on Attu, arose alone and advanced into a hail of bullets to clean out trench after trench so his battalion could advance. He died with his rifle at his shoulder, pumping lead into the enemy, while his mates were able to move up behind him and successfully take the pass. For this, Joe Martinez has been posthumously awarded the Nation's highest military honor. Let every man who was once a farm boy himself buy an *extra* War Bond in Joe's honor . . . for Joe took the bullets aimed at the heart of America!

You Never Get Less Than You Lend! And you can get ⅓ more than you invest, as War Bonds yield 2.9% interest compounded semi-annually, if held to maturity. Then you get back $4 for every $3 invested.

Cash When You Need It. If an emergency comes along, your War Bonds are like money in the bank. Uncle Sam will redeem them in cash—at full purchase price—any time after you've held them 60 days. Don't cash them unless you have to. And don't hold back a single dollar unnecessarily from the purchase of War Bonds. YOUR HELP IS NEEDED.

Facts About War Bonds (Series E)

You can buy War Bonds from your bank, postmaster, mail carrier or Production Credit Association. Don't wait. Do it by mail if you can't get to town!

The 4th WAR LOAN is your Opportunity to do Something About It!

It's Time to Take the Offensive. Your Government has the men it needs to do the job in the front lines—great men all! But it doesn't have the money it needs, by a long way. That's your job And the immediate task is the Fourth War Loan—Your chance to take the offensive not only in support of the men who are fighting and dying for you and your loved ones, but also in support of your own future!

What are you going to do about a wornout tractor, about repairing fences and buildings, about replacing depreciated machinery and equipment? Will you be ready with money in the bank when these things are needed?

You will if you take the offensive now! Put every extra dollar into U. S. War Bonds—the best form of financial reserve ever offered you. Think! You are asked to make a sound and prudent investment—not a sacrifice!

WHEN YOUR BOY COMES HOME

Will your boy come back to a farm or ranch with no financial reserves, no future? Or will you greet him at the gate with a bundle of War Savings Bonds—for working capital, new machinery, better buildings? And if your children are going to college, why not be sure they get there by buying today the bonds that will pay the cost.

No need, really, to tell an up-to-date farmer or rancher what he needs financial reserves for. You know more reasons than anyone else can enumerate for setting aside extra dollars to meet the future. Now is your chance to do it . . . and help fight the war too!
